Rides the Red Car at the Port of Los Angeles!

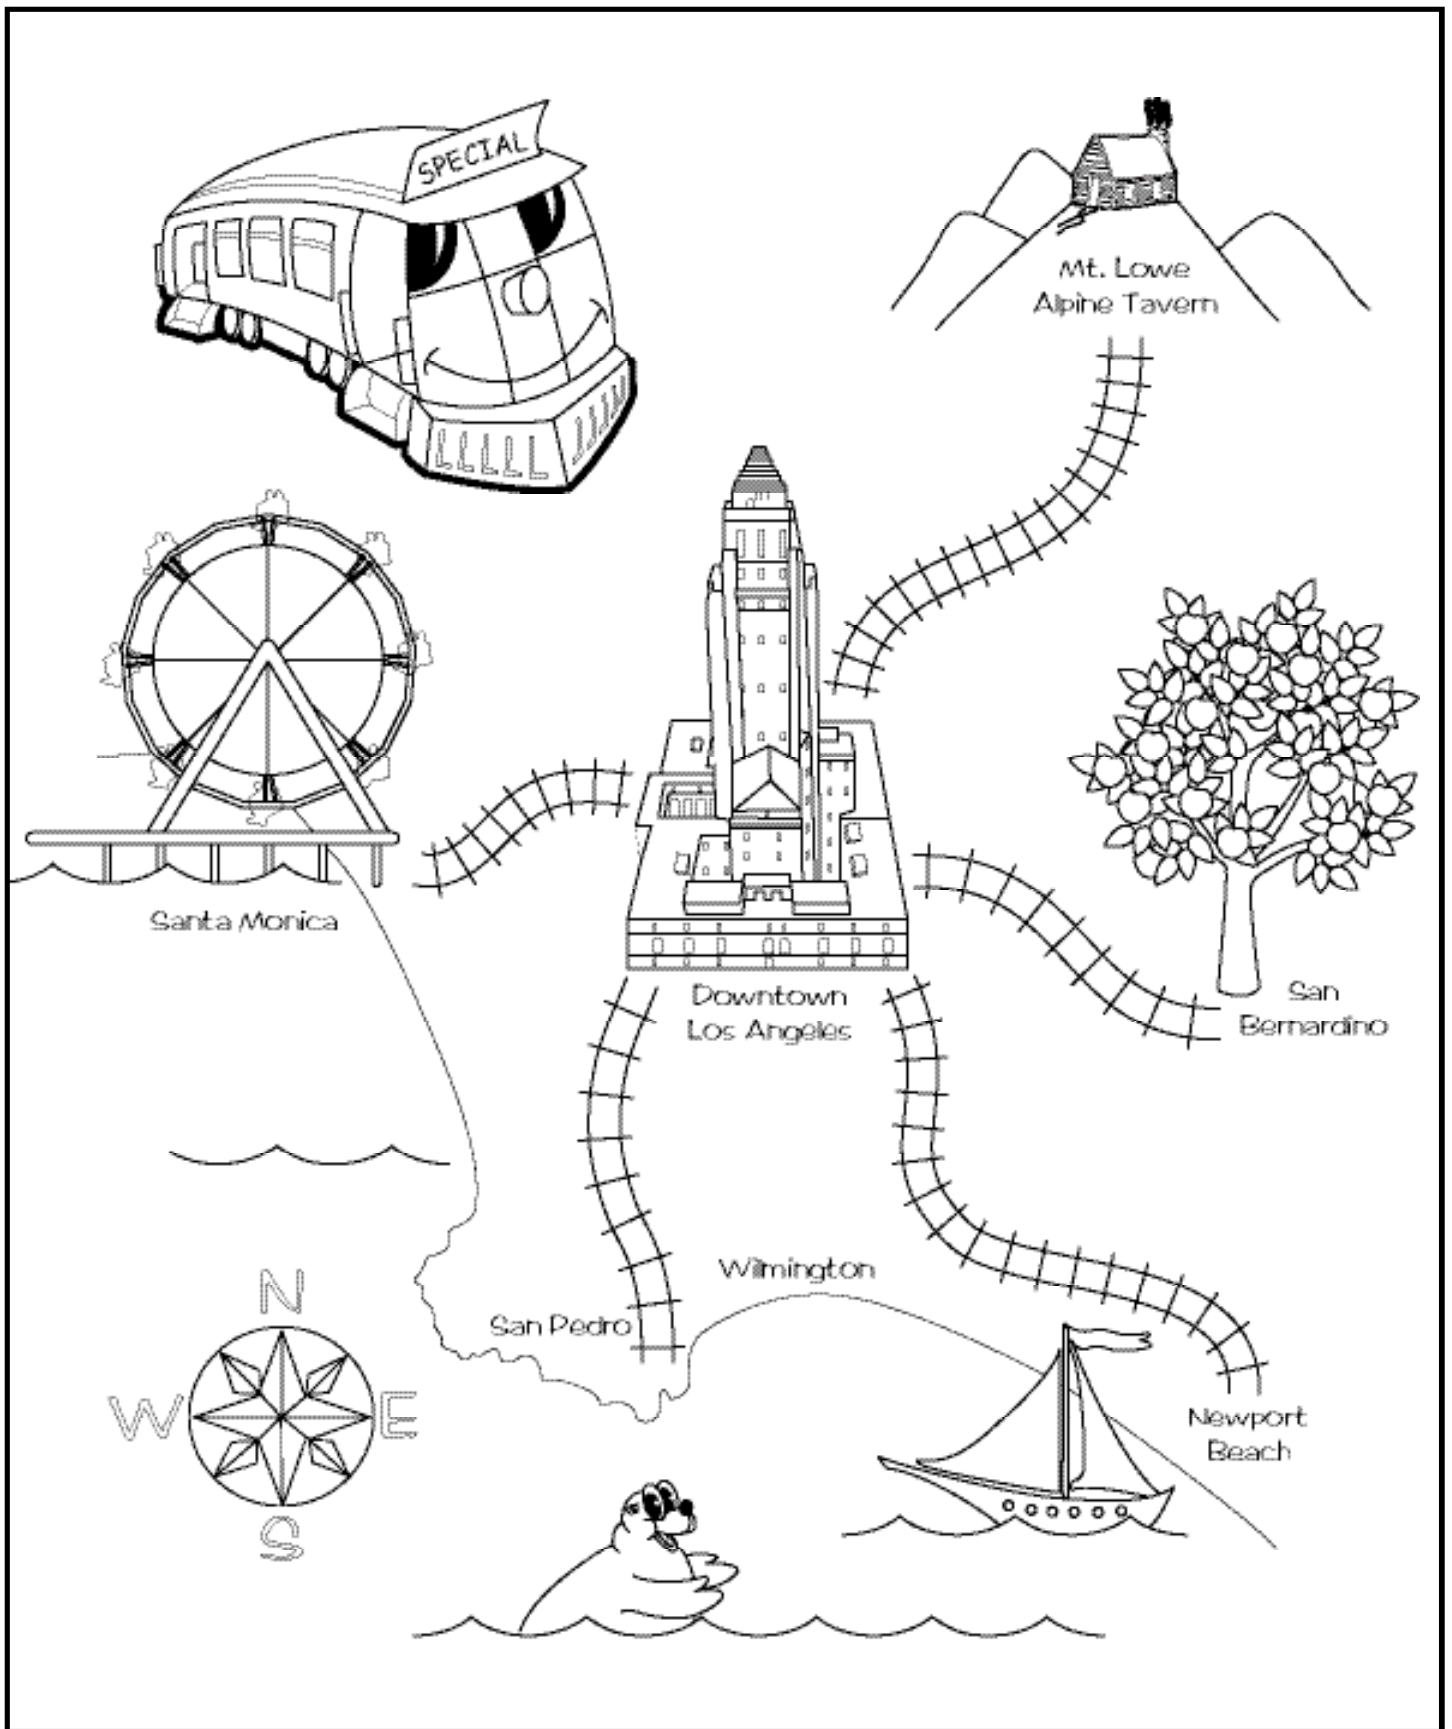

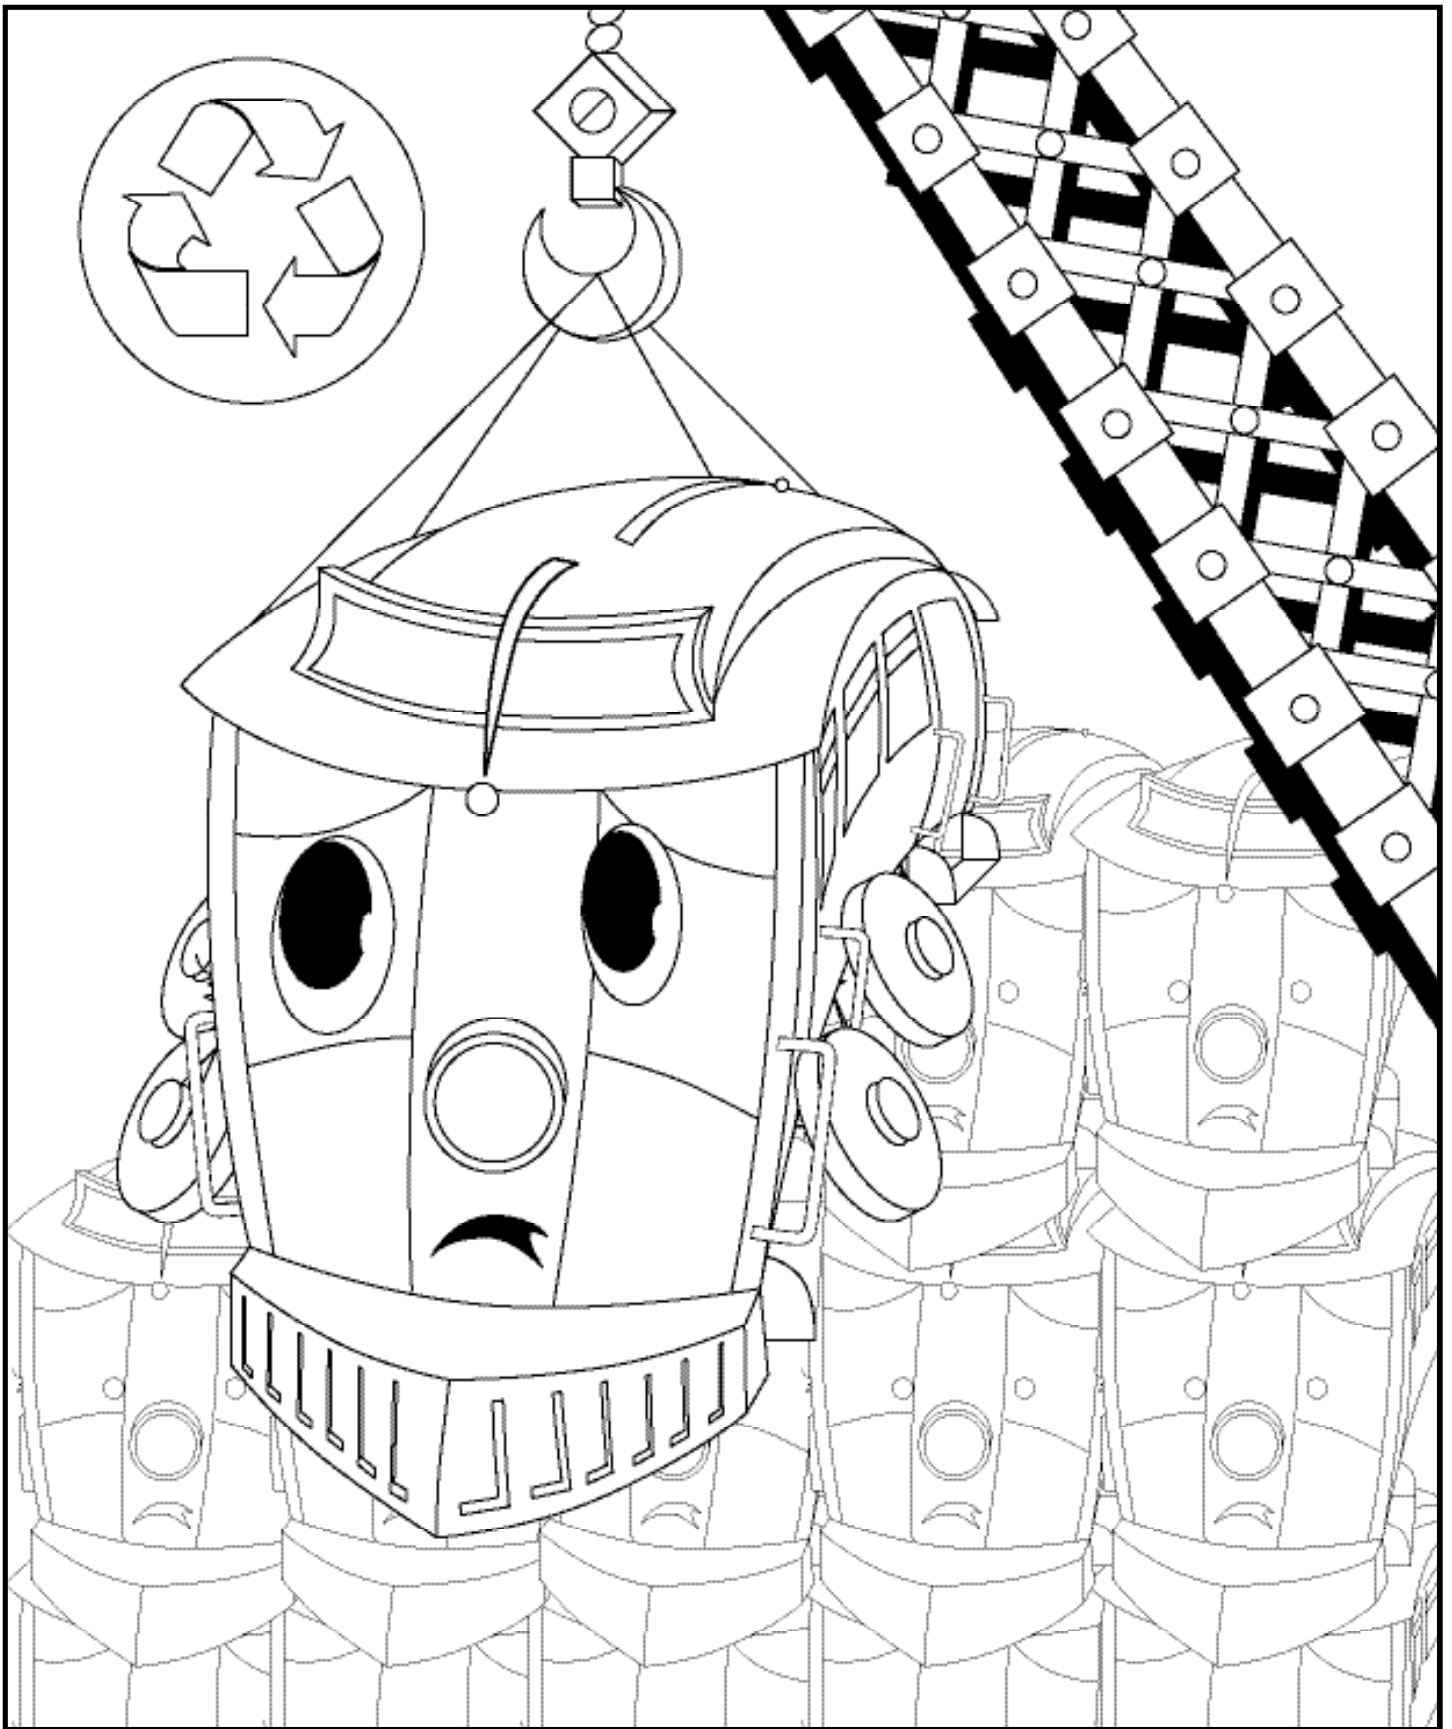

Pelican Pete rides the Red Car at the Port of Los Angeles!

The history of the Red Car in Los Angeles began more than 100 years ago.

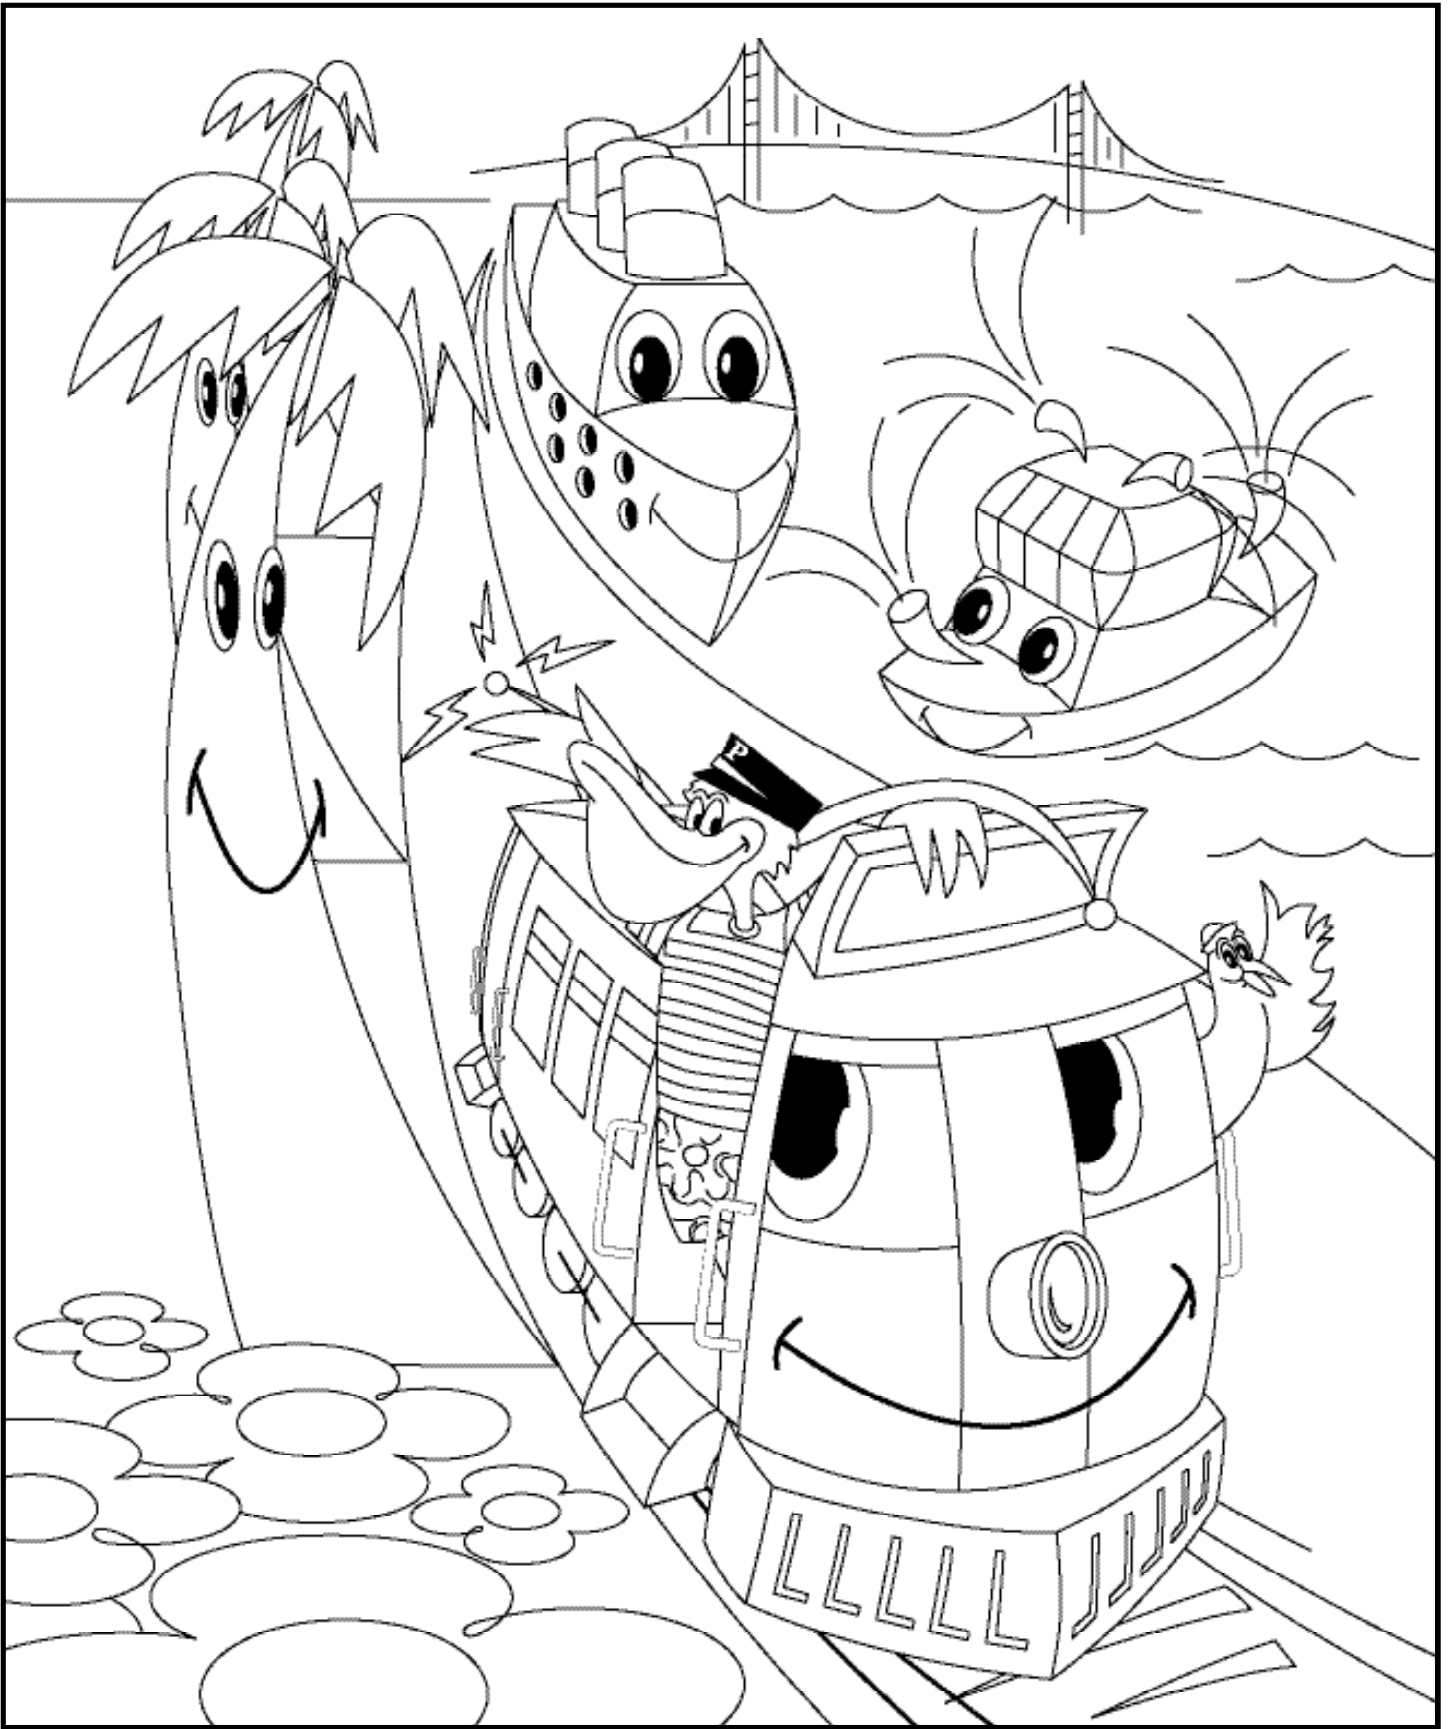

The Red Car system was largest in 1944 when more than 900 Red Cars moved passengers on 1,150 miles of track.

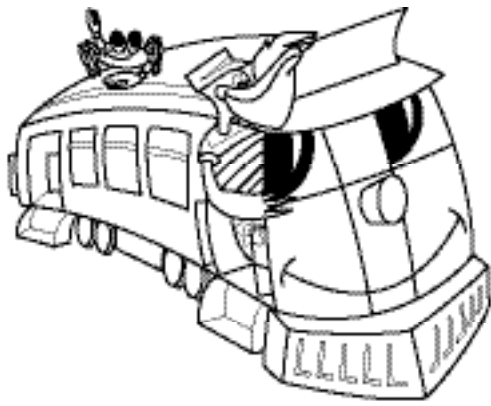

The last official Pacific Electric Red Car ran in 1961. The cars were recycled at the Port.

Today, the Red Car is back at the  
Port of Los Angeles!

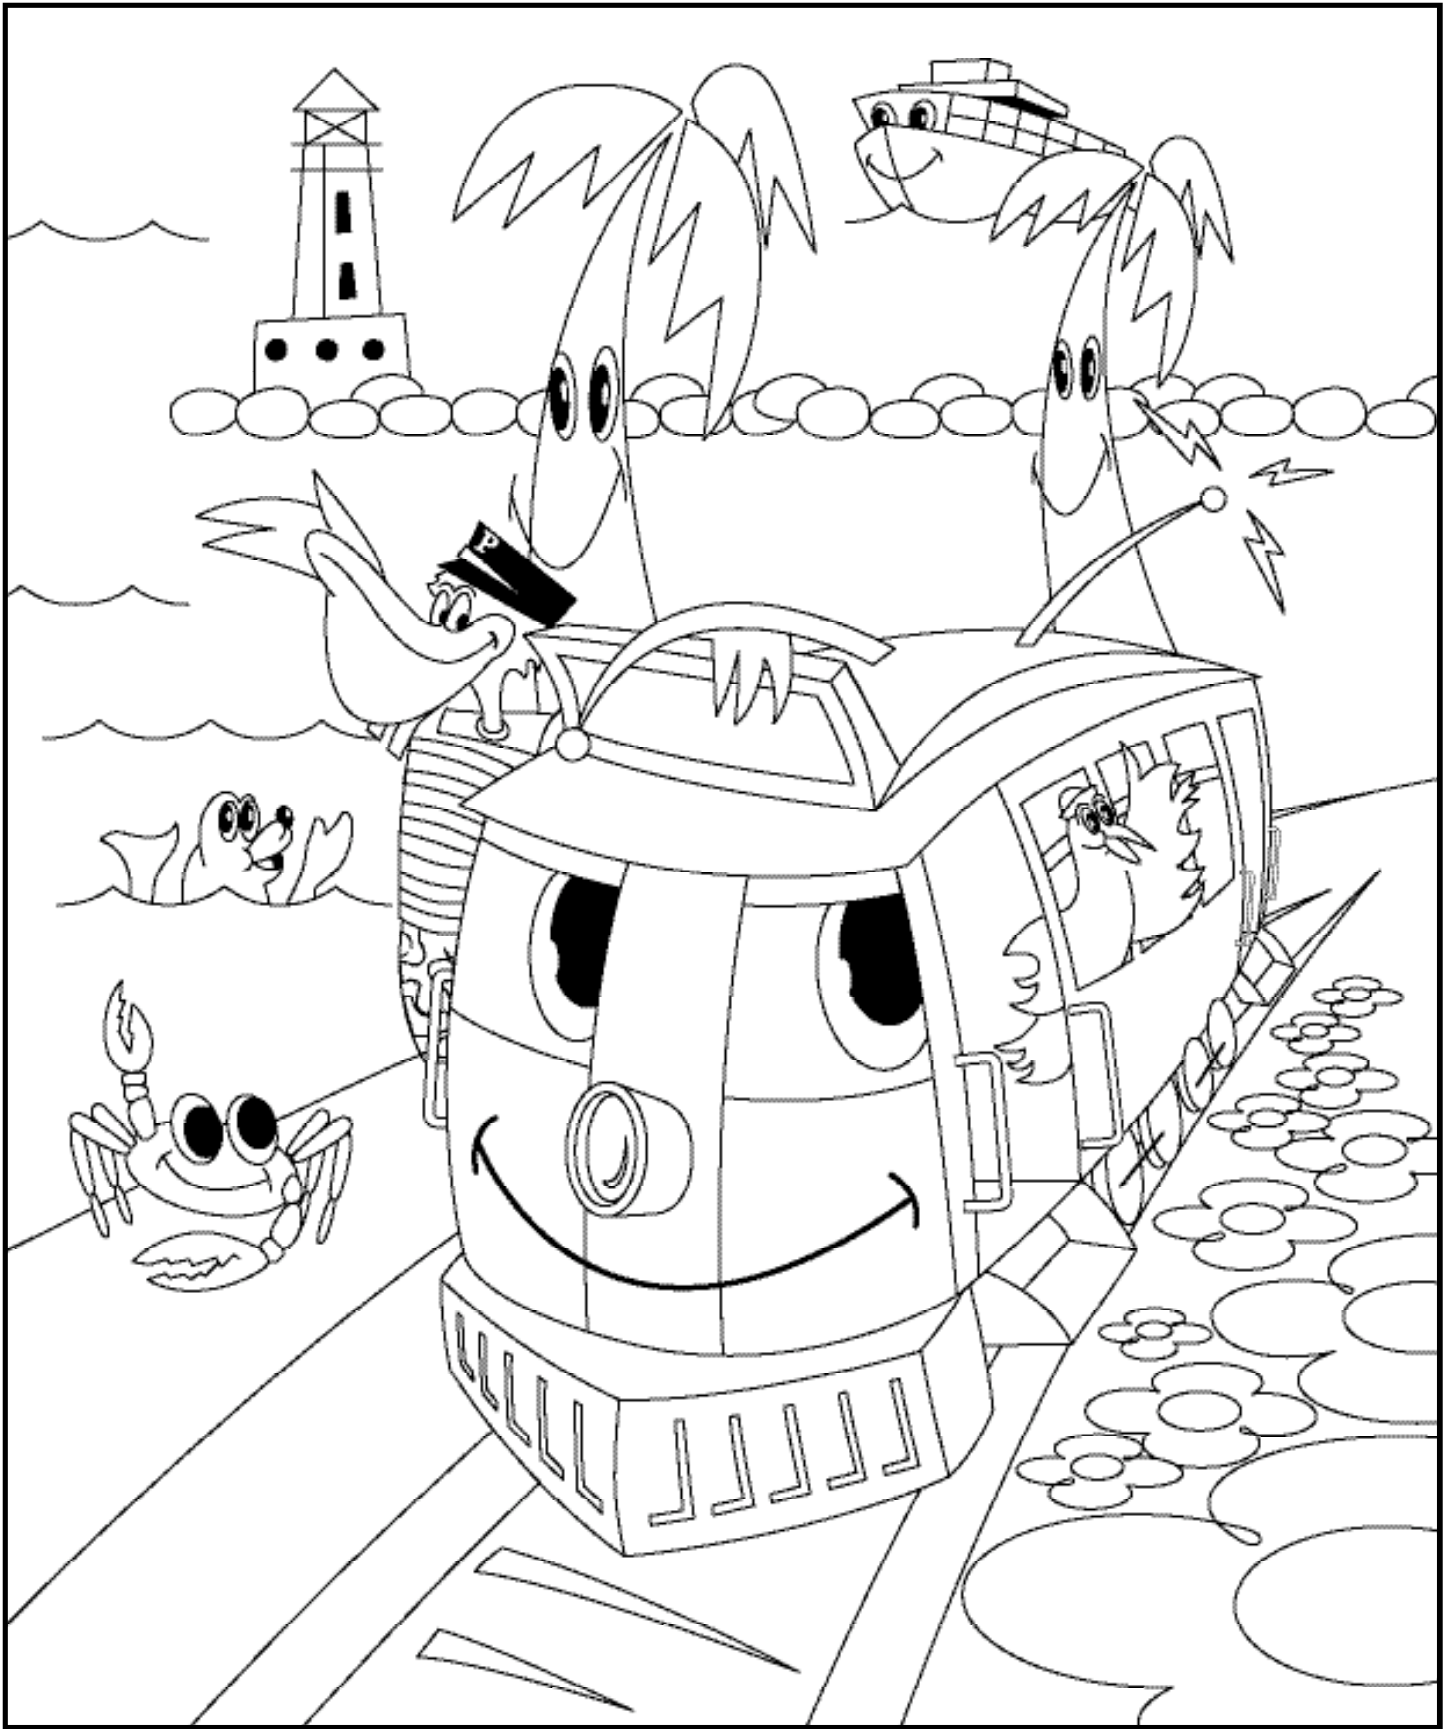

There's lots to see and do at the Port!
